

DINESH KUMAR M

**TECHNICAL WRITER/API DOCUMENTATION/DOC-AS-CODE/
DITA-XML/AI ASSISTED DOCUMENTATION**

"I enjoy making complex information easy to understand".

Profile Summary

Technical Writer with 6 years of experience specializing in API documentation, Docs-as-Code, and structured authoring (DITA XML). Proven track record in building scalable documentation systems, improving content usability, and delivering high-quality documentation in fast-paced Agile environments. Strong expertise in collaborating with cross-functional teams and translating complex technical concepts into user-friendly content.

Professional Experience

Role: Consultant - Technical Writer

Sapiens Technologies India Pvt Ltd (Jun 2025-Present)

- Delivered end-to-end documentation for insurance Journey Builder products, aligning sprint-wise enhancements, feature updates, and versioned release notes with evolving product lifecycles.
- Produced customer-facing, region-specific release notes and high-quality PDF deliverables, ensuring clarity, consistency, and adherence to localization standards.
- Designed and maintained structured Insurance Portal User Guides using DITA and Information Architecture principles, enabling Topi-Based scalable and reusable content across releases.
- Created and maintained comprehensive API documentation, including endpoints, request/response schemas, authentication methods, and error handling guidelines.
- Collaborated with cross-functional teams (developers, product owners, SMEs) to gather technical insights, led review cycles, and improved documentation accuracy and usability.
- Created visual and interactive documentation using Draw.io, Figma analysis, and video guides (Clipchamp), enhancing user understanding and engagement.
- Led migration from Confluence to a Docs-as-Code ecosystem using Storybook, transforming legacy content into structured Markdown/HTML for improved maintainability and version control.
- Managed documentation lifecycle in Storybook using VS Code and GitHub workflows (branching, commits, pull requests, merges), ensuring seamless integration with development pipelines.
- Developed an AI-powered documentation agent to analyze code repositories and auto-generate structured technical content, improving documentation efficiency and reducing manual effort.
- Produced precise and well-structured documentation in a high-velocity environment, ensuring on-time delivery with strong quality standards and minimal rework.

Education

Bachelor of Engineering
Aeronautical
First Class
J.J.College of Engg and Tech
2010 - 2014

DINESH KUMAR M

TECHNICAL WRITER/SOFTWARE DOCUMENTATION

Role: Technical Writer

Cades Studec Technologies India Pvt Ltd.

5 Years

- Analyzed customer requirements to develop user manuals, how-to guides, and training materials for Airbus applications
- Collaborated with data engineers and SMEs to create detailed internal training documentation
- Interpreted engineering drawings and BOMs to ensure accuracy in technical manuals
- Conducted peer reviews and maintained high-quality standards before publishing content
- Used SAP, Arbortext Editor, and XML tools for structured documentation workflows
- Developed content using Simplified Technical English (STE) for improved clarity
- Implemented XML-based reusable content strategies to enhance efficiency
- Managed tasks using project tools and consistently delivered before deadlines
- Created presentations and training materials using MS Office tools

Key Achievements

- Led successful transition to Docs-as-Code ecosystem from Confluence-improving documentation scalability.
- Developed AI-based documentation automation, reducing manual effort significantly.
- Delivered consistent, high-quality documentation in high-velocity Agile environments.
- Enhanced user experience through structured, reusable, and user-focused content.
- Reduced support tickets by improving documentation quality, allowing engineering teams to focus on feature development

Skill Enhancements

- **Technical writing Course** by Tech Total Systems.
- **The Art of API Documentation** from Udemy.
- **Prompt Engineering** from Coddy.
- **AI Fluency**: Framework and Prompt Engineering by Anthropic.
