1 Introduction

The Workers' Compensation Agent Portal is a comprehensive and user-friendly platform designed to support agents in managing their workers' compensation business efficiently. The portal provides centralized access to policies, claims, quotes, commissions, reports, and related documents, enabling agents to monitor their portfolio and perform day-to-day activities from a single interface.

Through this portal, agents can:

- View dashboards with key business metrics
- Explore policies, claims, quotes, and cancellations
- Track commission earnings and payments
- Generate analytical reports
- Access detailed 360-degree views of policies, claims, and quotes
- Manage communications, announcements, and resource center content
- Administer user accounts and access permissions

2 Login

To access the NovaSuite Workers' Compensation Agent Portal, users must have a registered email address and password.

2.1 Login Procedure

1. Navigate to the Workers' Compensation Agent Portal URL.
2. Enter your registered Email Address.
3. Enter your Password.
4. Click the Sign In button.

Note: If you have forgotten your password, click [Forgot Password?](#) to initiate a reset. If you do not have an account, click [Register](#) to begin the registration process.

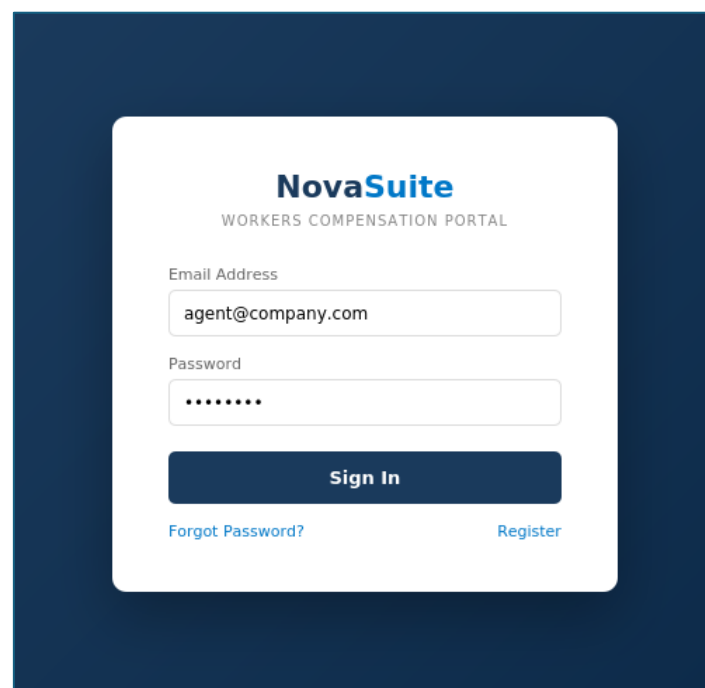

The image shows a login form for the NovaSuite Workers' Compensation Portal. The form is centered on a dark blue background. It features the NovaSuite logo at the top, followed by the text 'WORKERS COMPENSATION PORTAL'. Below this, there are two input fields: 'Email Address' with the value 'agent@company.com' and 'Password' with masked characters '.....'. A dark blue 'Sign In' button is positioned below the password field. At the bottom of the form, there are two links: 'Forgot Password?' and 'Register'.

4 Quick Launch

The Quick Launch panel on the landing page provides one-click access to the most common agent actions.

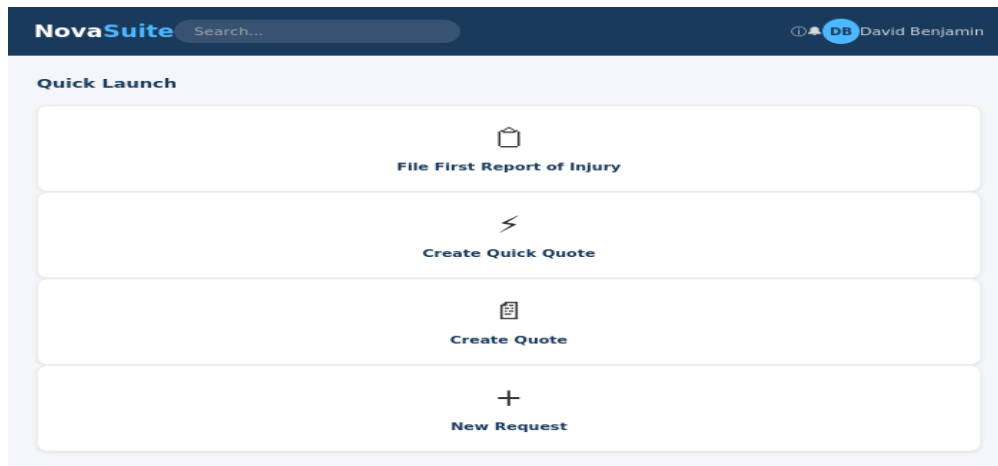

Figure 3 - Quick Launch

4.1 File First Report of Injury (FROI)

The FROI journey is a guided process for filing an official report about a workplace injury, illness, or incident.

Note: The File First Report of Injury journey can also be launched from Policy 360 View or via: Explore → Policies → Select Policy → File First Report of Injury.

Step 1 — Policy Information

5. Enter the Policy Number.
6. Select the Date of Injury.
7. Click Continue.

 A screenshot of the NovaSuite File First Report of Injury (FROI) Step 1: Policy Information form. The form has a dark blue header with the NovaSuite logo and a search bar. Below the header, the title "File First Report of Injury" is displayed. A progress bar shows six steps: 1. Policy, 2. Incident, 3. Worker, 4. Contact, 5. Injury, and 6. Review. The first step, "Policy", is highlighted. The main area contains two input fields: "Policy Number *" with the value "WC-2024-008822" and "Date of Injury *" with the value "2025-08-14". A "Continue →" button is located at the bottom right.

4.3 Create Quote

The Create Quote journey allows agents to submit a detailed quote based on business requirements. The submitted quote proceeds through underwriting and is converted into a policy upon approval.

The journey covers eight steps:

Step	Section	Description
1	Business Details	Enter business name, type, and ownership information.
2	Risk Locations	Add physical risk location addresses.
3	Business Operations	Describe business operations and ownership structure.
4	Questions	Respond to underwriting qualification questions.
5	Classification Codes	Add class codes, exposure amounts, and employee counts.
6	Rating Elements	Review state-specific rating elements and modifiers.
7	Loss Information	Declare any past loss history for accurate premium calculation.
8	Review & Submit	Upload documents, review the quote, and submit.

Note: During the quote journey, select *Save and Exit* at any step to save progress and return later.

4.4 New Request

The Create New Request journey allows agents to generate a wide range of service requests through a dynamic, context-aware dropdown that presents all available request types.

Note: *New Request* can also be launched from *Policy 360 View* or via: *Explore* → *Policies* → *Select Policy* → *New Request*.

23. Select the available Request Type from the dropdown menu.
24. Enter Additional Request Details and click Next.
25. Enter Contact Information and click Submit.

5 Explore

The Explore function allows agents to filter and view different types of policy-related data. A dropdown menu enables switching between data categories.
